Full stack Developer

Experienced Full Stack Developer with 3+ years of experience developing websites and applications using the latest technologies. Proven ability to troubleshoot software issues and create innovative solutions

Full Stack Developer creating and managing frontend and backend applications. Skilled in a wide range of programming languages, databases, and frameworks.

Work Experience

- O Implemented a user-friendly front-end design with HTML5, CSS3, jQuery and React js Next js to ensure an excellent user experience.
- Next.js React Application:
 - Spearheaded the development of a dynamic client-side rendering (CSR) React application using Next.js, providing a seamless user experience and improving page load times.
 - Implemented responsive UI components and optimized the application for various devices, ensuring a consistent look and feel across platforms.
- O PHP Backend Development:
 - Designed and implemented backend functionalities using PHP to handle data processing, authentication, and server-side logic.
 - Developed RESTful APIs to facilitate smooth communication between the frontend and backend, ensuring efficient data flow and application responsiveness.
- O Database Management with SQL:
 - Designed and maintained the relational database schema using SQL, optimizing queries for performance and scalability.
 - Implemented database migrations, ensuring data consistency and integrity throughout the development lifecycle.
- O Used modern development tools such as Git and GitHub to collaborate on code and create version control.
- Optimized webpages for performance, scalability, and security using technologies such as AJAX and RESTful APIs.
- Developed and maintained web applications for a variety of clients across different industries.
